## **BIOFUELS VETERAN LARRY PECKOUS JOINS EDENIQ**

**VISALIA, CA (February 10, 2009)** – EdeniQ, a California-based biotechnology company serving the biofuels industry, today announced the hiring of Larry Peckous as Vice President of Sales. Peckous, a 28-year veteran of the starch-processing and biofuels industries most recently served as the Principal Scientist for Novozymes in China. Previously, Peckous held senior management positions focused on improving bio-refining plant efficiencies, and on marketing and implementing enzyme and fermentation technologies.

EdeniQ is launching services this spring to help biofuels producers increase ethanol yields through a combination of biological and mechanical processes.

“We’re thrilled to have Larry join our team,” said EdeniQ’s CEO, Larry Gross. “He brings a unique combination of technical and sales skills that are ideally suited to help EdeniQ bring its suite of yield enhancing services to market.”

“I have a real passion for engineering that improves financial performance,” said Peckous. “EdeniQ’s soon-to-be-launched productivity services are in the ‘sweet spot’ where a well-engineered process can lead to game-changing economic results.”

### **About EdeniQ**

EdeniQ develops and delivers proprietary, cutting-edge solutions for the global biofuels industry. Our solutions help biofuel producers reduce operating costs, increase profits, and improve environmental results. Soon, EdeniQ will enable biofuels producers to economically convert a wide range of non-food biomasses into affordable, clean fuel. EdeniQ is Changing Energy™.
